

#415 Ending the USSR to Build the Second Babel – The Earth of One Speech: The Rise and Fall of the Soviet Union and “Making the World Safe for Democracy”

Key Understanding #1: The Lord designed history to unfold so that both the World War I *Rise* of the Soviet Union and the Cold War *Fall* of the Soviet Union would be closely tied to the historical theme of “Making the World Safe for Democracy.”

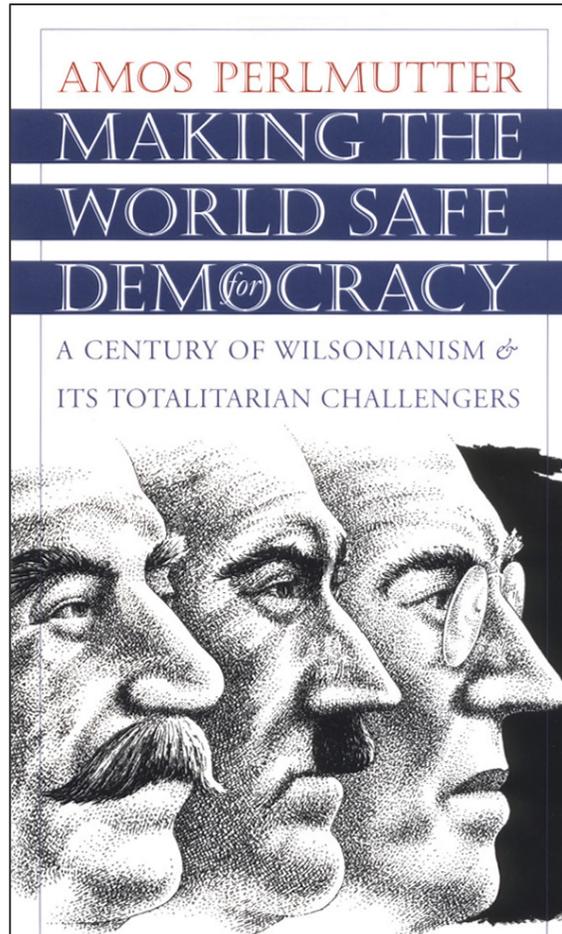

World War I

**Woodrow Wilson’s
“Making the World
Safe for Democracy”**

thwarted by the *Rise* of the Soviet Union. We have already seen that the overthrow of Tsar Nicholas II and the establishment of the democratic Provisional Government in the first Russian Revolution in March 1917 led to Woodrow Wilson’s decision for America to enter World War I to “Make the World Safe for Democracy.” However, while the war ended the autocracies of the Russian Empire, Ottoman Empire, Austrian-Hungarian Empire, and German Empire, all of which stood in the way of “Making the World Safe for Democracy,” the success of the second Russian Revolution of 1917 – the October ‘Red Revolution’ of the Bolsheviks – and the rise of the Soviet Empire thwarted the immediate attempts of America to “Make the World Safe for Democracy.”

The Cold War

Ronald Wilson Reagan “Making the World Safe for Democracy” through the *Fall* of the

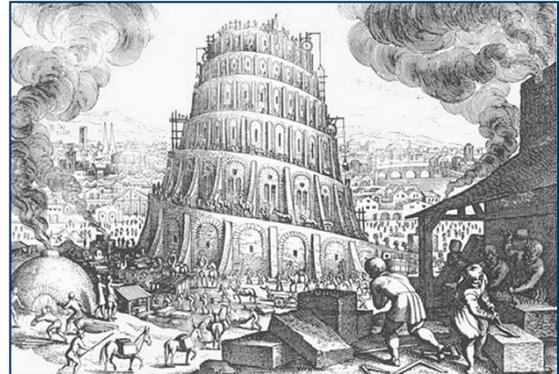

Soviet Union. Even though the Soviet Union actually fell in 1991 during the administration of George H. W. Bush, it was the presidency of Ronald *Wilson* Reagan (1981-1989) that most

agree was a contributing factor in the Fall of the Soviet Union and the end of the Cold War. (The Lord ordained that Ronald Wilson

Reagan be named *Wilson* precisely because of the prophetic points that we are addressing.) As was stated in the paragraph above about the World War I time period, the Rise of the Soviet

Union forestalled any great hope to immediately “Make the World Safe for Democracy.” **However, the Fall of the Soviet Union in 1991 gave reasonable hope for the earth to be of *one* language and *one* speech politically, through *democracy* reigning in the hearts and minds and mouths of men and their governments.** [Thus, Woodrow Wilson’s attempt to “Make the World Safe for Democracy” was forestalled through Russia turning from its democratic Provisional Government to Bolshevik Communism, and could not become a reality until the Soviet Union fell.]

Key Understanding #2: Both the World War I *Rise* of the Soviet Union and the Cold War *Fall* of the Soviet Union would be closely linked with the historical theme of “Making the World Safe for Democracy,” fulfilling the Genesis 11 spirit and theme of the earth being “*of one language*” and “*of one speech*,” through the hope of being *one politically* in the latter days, via *Democracy* reigning in the hearts and minds and mouths of men and their governments.

Genesis 11:1 (KJV) And the whole earth was of one language, and of one speech.

[**Very Important Point:** We will see later that both (a) America’s April 6, 1917, entry into World War I, and then (b) the end of the Cold War are tied closely to the theme of America blindly and unknowingly, but yet willingly, attempting to build what the Lord considers to be a second Genesis 11 Babel.]
